Research Backup Careers

Student Instructions

As much as you plan and focus on a goal, you never know what life might throw at you, sending you on a new course. For example, you may enroll in a postsecondary training or education major with one career goal in mind, but your learning and development may lead you in a different direction. For one saved career:

- 1 Read the **Education & Training** section of the career profile.
- 2 Explore a few of the **Related Majors** and save one that interests you.
- 3 Look at the **Related Careers** list on the major profile, are there any new careers listed here that interest you? If yes, review the profile and save it.
- 4 Open a new browser tab and search for the major and school webpage. Most majors will describe or list after graduation employment opportunities or potential career paths. Are there any new careers listed here that interest you?
- 5 Back in Xello, return to the major profile page. Add the weblink to the major's **Storyboard** and include details about the related careers in the text field. Then spend some time exploring this career in Xello or online, evaluating whether this career would make a good backup plan or not.

Investigar profesiones alternativas

Instrucciones para estudiantes

Sin importar con cuánto esfuerzo hagas planes para alcanzar una meta y te enfoques en ella, nunca se sabe lo que la vida te puede deparar y puede surgir un nuevo rumbo. Por ejemplo, puedes inscribirte en una carrera de capacitación o educación de nivel superior con una meta profesional en mente, pero tu aprendizaje y desarrollo pueden conducirte en una dirección diferente. Para una profesión guardada:

1. Ve a la sección de **Educación y capacitación** del perfil de la profesión.
2. Explora alguno de los **Programas relacionados** y guarda uno que te interese.
3. Mira la lista de **Profesiones similares** en el perfil de programa. ¿Hay allí nuevas profesiones que te interesen? Si es así, revisa el perfil y guárdalo.
4. Abre una nueva pestaña y busca la carrera y la página web de la institución. En la mayoría de los programas se describirán o mencionarán oportunidades de empleo o posibles rumbos profesionales después de la graduación. ¿Se mencionan algunas profesiones que te interesen?
5. En Xello, regresa a la página de perfil de programa. Agrega el enlace web al **Tablero** del programa e incluye detalles sobre las profesiones relacionadas en el campo de texto. Luego, dedica un tiempo a explorar esta profesión en Xello o en línea y evalúa si esta profesión sería o no un buen plan alternativo.
