

Student Dashboard Improvements

This summer, students will have access to Xello's new student dashboard, with better progress tracking, clear next steps, and greater emphasis on educator-created content. Here's a preview:

The screenshot shows the Xello student dashboard for a user named Annie, who is in Grade 11. The dashboard features a top navigation bar with the Xello logo and links for 'About me', 'Explore Options', and 'Goals & Plans'. A search icon, a heart icon, and a profile picture are also present. The main content area is personalized with the greeting 'Hey Annie'. The 'Core Lessons' section shows a progress indicator at 60% and a featured lesson titled 'Entrepreneurial Skills' with a 'Get Started' button. Below this, a list of lessons is shown, including 'Applying for College', 'Choosing a College or University', 'Finish Matchmaker', and 'Career Demand', each with a status indicator (checkmark or 'AC'). The 'Quick Links' section provides access to 'About Me', 'Explore Options', and 'Goals and Plans', with sub-links like 'Matchmaker', 'Careers', 'My Plans', 'Personality Styles', 'Schools', 'Course Planner', 'Learning Styles', 'Programs', 'College Planning', 'Skills Lab', and 'Saved Options'. The 'Assignments' section lists two assignments: 'Interview your parents about their careers' and 'Essay: My Dream Career', both due on January 31, 2020. The 'Links and Resources' section includes 'Method Test Prep' and 'Welcome to Xello'.

- 1 The top menu stays the same with links to the main program sections, search, and saved options.
- 2 Lessons are front and center with a clear progress indicator. As students complete a lesson, the next lesson is highlighted.
- 3 Quick links to key areas are still there, just more compact.
- 4 Assignments have moved up higher on the page so students never miss them.
- 5 Educator-created Links & Resources are more prominent.
