

Explore options

Let's get exploring!

Use this walkthrough to learn about exploring options in Xello.

There are several different paths you can take after high school. Explore all your options to feel confident and ready to take whichever path you're interested in.

If you already have a career in mind, read through the career profile to learn about earnings, workplace tasks, education pathways, and more. Or start with an interactive and engaging school profile. Alternatively, start browsing programs in your favourite school subject.

Tip: You can begin exploring options at any point. For a personalized careers list, complete the **Matchmaker** assessment first. Career matches are based on your answers in **Matchmaker**, so the careers suited to your interests and skills will be listed first. Check out [Assessments and About Me](#) to learn more.

Explore careers

Whether you want to start your journey by exploring careers, schools, or programs, you can start from the **Explore options** area. We're going to start by exploring careers!

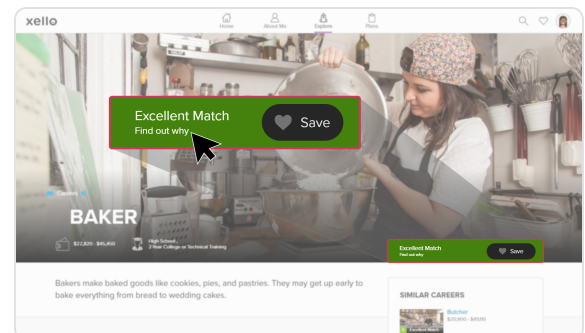

- 1 From the top menu, click **Explore**, then select **Careers**. You'll see your top 20 best-matched careers.
- 2 Explore the dynamic filters by clicking **More Filters**. You can narrow the list of careers by salary, education, related school subjects, and more.
- 3 The careers are sorted based on the strength of your match: Excellent, Good, Fair, or Poor.
- 4 If you don't want to see a career, you can click **Hide**. Don't worry, you'll be able to find it again in the filters.

The screenshot shows the 'EXPLORE CAREERS' page on the xello website. The interface includes a top navigation bar with 'Home', 'About Me', 'Explore' (highlighted with a red box and callout 1), and 'Plans'. Below the navigation bar is a large banner with the text 'EXPLORE CAREERS' and a rocket ship graphic. A filter section below the banner includes a 'Minimum Salary' slider from \$0 to \$125,000+, and 'Education' filters for 'H' High School, 'C' College or Technical Training, and 'U' University. A 'More Filters' button is highlighted with a red box and callout 2. The main content area displays a grid of career cards. The 'Costume Designer' card is highlighted with a red box and callout 3, showing an 'Excellent Match' (E) and a salary range of \$20,000 - \$85,000. A 'Hide' button is visible on the right side of the card, highlighted with a red box and callout 4. Other visible career cards include 'Roofer', 'Concrete Mason', 'Machinist', and 'Tool and Die Maker', all showing 'Excellent Match' ratings.

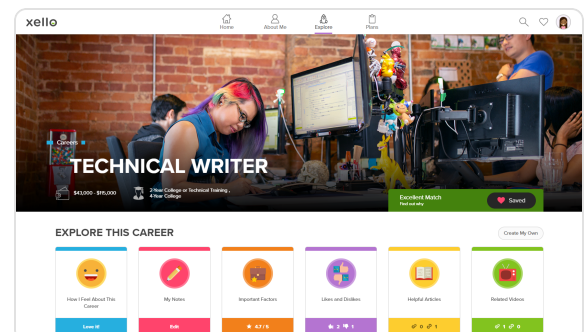

Deep dive on a career

Xello includes hundreds of career profiles written and researched by our in-house team of experts. Each profile contains loads of information to help you learn everything you need to know about that career. Check out salary ranges, job outlooks, and required education levels. Or explore the career paths of professionals who have already achieved success in that area. To view a career profile, click on a career that interests you.

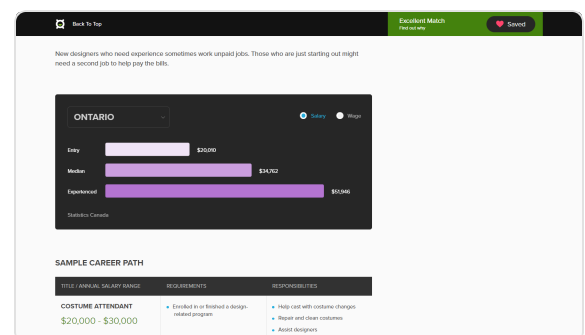

Click **Find out why** to see how the answers you gave in your assessments contributed to your match score. You can change your answers if you'd like. This might change your strength of match. Click **Done** in the top right to return to the profile.

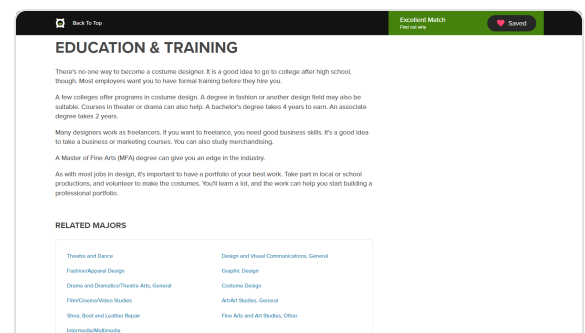

Click the heart icon to save the career as a favourite. Use investigative prompts to record how you feel about the career. This will help you think about why you want to work in that field.

After reading about the core tasks and work conditions, check out the earnings tool. Switch between salary and wage, and change the province to learn the range of how much the career earns.

Read all about education and training for the career. This will help you think about and plan for your next steps in high school and after. Clicking on a related program will bring you to that profile.

Explore programs

The program profile gives you information about that program, such as a description, typical courses, related careers, and schools that offer that major.
