

Lessons in Xello 6-12

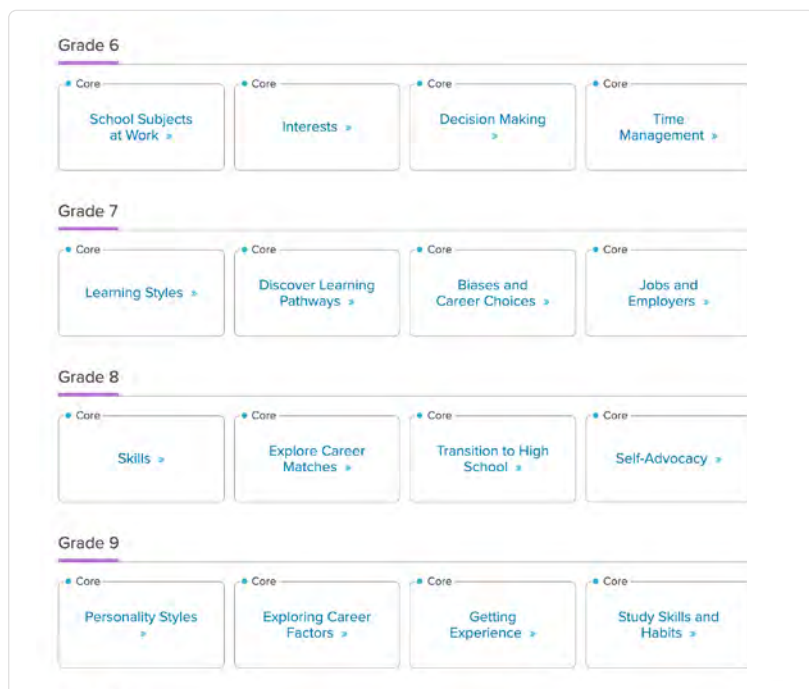

Lessons are interactive, fully digital and turn-key

With integrated lessons, students build essential skills and knowledge that can help them succeed in the real world. Personalized based on their work in Xello, lessons give students the chance to reflect, reassess, and build communication, problem solving, and teamwork skills to ensure smooth transitions between critical life stages.

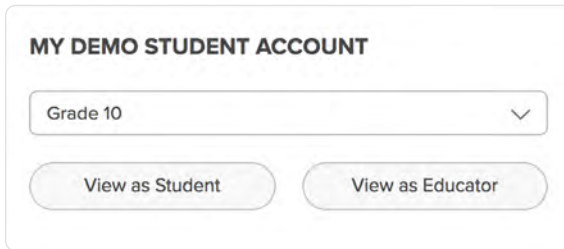

Check out the lessons available!

- 1 Sign in to your educator account.
- 2 Click on **Features** in the menu on the left and select **Lessons**.
- 3 Select any lesson name to learn more about it, and pick one you want to explore.

Experience a lesson for yourself

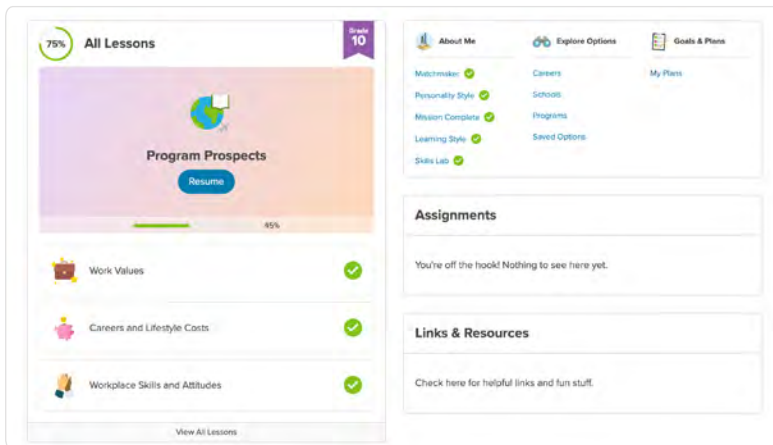

- 1 Click on the Xello logo to return to your Dashboard
- 2 Find the **My Demo Student Account** section on the right.

- 3 From the dropdown menu, select the grade for the lesson you want to explore and click **View as Student**. Your student demo account opens in a new tab.

Student Dashboard

Now you're on the **Student Dashboard**. One of the first things you'll see are the **Lessons** you need to complete. Click on one to try it out.

TIP: Click on **View All Lessons** to see lessons available in previous grades.

You can exit a lesson in progress by clicking on the **Done** button in the top right corner. When you reopen the lesson, you'll pick up right where you left off.

You might need to complete some prerequisite activities, like saving careers, before you can start.

Checklist:

- Investigate the different **Lessons** offered in Xello
- Find **Lessons** on the **Student Dashboard**
- Complete a **Lesson**
