xello

Bringing Xello to Life in Your Schools

Xello Implementation Planning Web-based Training

Audience
Key educators, school counselors, principals and/or program coordinators supporting the implementation of Xello and involved in career development program planning.

Description
This 90-minute interactive session, provides key Xello educators the opportunity to discuss some of the key challenges schools face in implementing Xello — how to build a team, how to find the time, how to make career development relevant, and how to support a program for the long run.

Requirements
- ✓ Lesson sequence is set
- ✓ Participants need a basic understanding of Xello
- ✓ All participants must have their own computer and Xello educator account

Learning Outcomes
- ● Understand how Xello fits into your interactions with students
- ● Identify ways Xello can support what you're already doing
- ● Discuss ways Xello could be embedded into learning
- ● Review your district's goals with Xello and outline steps to monitor progress

Agenda
1. Your district's' goals with Xello
2. Challenges schools face with implementing Xello
3. Finding time for Xello
4. How to bring Xello to life
5. Steps to ensure success
6. Wrap up and Q&A
