Xello's Built-in Lessons

Xello's future readiness model assists schools in evidence collection, monitoring, and reporting of career awareness and preparation activities for each grade span. This document provides recommendations on how to configure lessons in Xello to support the state Academic Standards for Career Education and Work (CEW standards).

Lessons are interactive, fully digital and turn-key. By automatically bringing in students' own saved careers, providers, courses and interests, Xello provides a completely personalized, seamless and relevant learning experience.

You can easily integrate lessons into your curriculum, providing students with a self-directed and engaging way to meet your learning goals and help students make more meaningful decisions about their future.

- ✓ Lessons appear on the student dashboard and **guide students** through their learning objectives.
- ✓ **Progress tracking** clearly shows what students have accomplished and what they still need to do.
- ✓ Find out more about lessons in Xello, including how students work with lessons and how you can review and report on lessons in Xello Support at <https://help.xello.world>

Xello Lessons to CEW Standards Crosswalk

K-5 Lessons	
Xello Lesson	CEW Standard
Mission: Interests	13.1.5

Career Path Choices	13.1.11, 13.3.11

* [Boss Bio](#) and [Entrepreneurship Investigation](#) are pre-designed custom lessons.

Xello’s PIMS Career Readiness Indicator Report

This report allows educators to export a list of students and the status of their PIMS requirements.

The report links each of the standards as indicated by Pennsylvania’s Career Education and Work Standard (Chapter 339) to one or more Xello lessons. Once students complete one of the associated lessons, they will be marked with a “Y” for completion in that column of the report. The PIMS report is set up by Xello and customized for your district. It is available from district, middle, and high school educator accounts.

For more support on how Xello supports the Academic Standards for Career Education and Work check out [Resources for Pennsylvania Educators](#) on [Xello Support](#).

How to Export the Report

1. In your account, click on **Reports** in the menu on the left and then select **PIMS Career Readiness Indicator Report**.
2. Here you’ll find PIMS requirements, along with the corresponding Xello lesson(s) where students fulfill that requirement.
 - Some requirements may have multiple ways that students can fulfill it. Students only need to complete one of the correlated lessons to complete the requirement.
3. From here you can **Export all grades**, or Select one or more grades to export.
 - The exported report will have the students’ information, their total number of logins, along with a column for each PIMS requirement. The PIMS columns will have a Y/N indicating if the student has fulfilled that requirement.

The screenshot shows the Xello interface for configuring the PIMS Career Readiness Indicator report. On the left is a dark sidebar menu with options like STUDENTS, FAMILIES, EDUCATORS, FEATURES, and REPORTS. The 'REPORTS' section is expanded, showing 'PIMS Career Readiness Indicator' as the selected option. The main content area has a search bar at the top, followed by the title 'PIMS Career Readiness Indicator'. Below this, there's an 'Export report' section with a description and two radio button options: 'Export all grades' (selected) and 'Select one or more grades to export'. There are 'Excel' and 'CSV' export buttons. Below that is a 'Requirements configuration' section with a table showing the correlation of requirements to Xello lessons.
